Body-Mind Systems

Video Editor

Part Time; 2001 – present

Creating short instructional health & fitness videos for the internet.

CBC Newsworld

Video Editor

1990 – 1993

Editing short documentaries, news items, promos, musical “bumpers”, seconded to editing TV shows as required.

Both of the above positions demanded sensitivity to deadlines, to project restraints and client requirements. In the case of *CBC*, I often worked closely with producers to help them create and meet their vision for each piece, and then would be left to complete the work.

Tools of the Trade

- Adobe CS4 series:
Premiere, After Effects,
Photoshop, Encore,
Media Encoder, etc.
- Avid Media Composer

Plus some nice little apps I'd recommend

- Super (A great tool for easily converting any codec.)
- DVD Shrink

Audio

- Analog sound boards
(It's nice to see them coming back into fashion)
- Magic Studio 7
- Creative Wave Studio
- Audacity

Basically, it's easy for me to work with new software applications; audio, video or otherwise.

Programming & Web Applications

- CSS
- Dreamweaver
- Some Javascript
- Some Flash
- Variations on Basic
